ALUMINUM REFLECTORS

G | NEW

Luraline Lighting

Reflecta silver dome pendants illuminate the kitchen of this industrial-styled loft in New York City.

▲ Luraline Lighting's Reflecta series of traditional, angled, tapered, and wave-style aluminum reflectors is available as cord- or stem-hung pendants; wall mounts with aluminum conduit arms in multiple sizes and styles; or post-mount fixtures with architectural-grade aluminum posts. Suitable for interior and exterior commercial applications, including retail, restaurant, hospitality, entertainment, healthcare, contract, and multi-family residential. Reflecta is offered with the latest in energy-efficient, eco-friendly light sources, including electronically ballasted compact fluorescent and HID, with optional diffusers. Available in the new Luraline palette of more than 50 powder-coated smooth, textured, and metallic finishes, plus the collection of classic RAL colors and custom color matching.

Performance Data:

- Reflecta 13W CF models - 825 lumens (63 lumens per watt efficacy)
- Reflecta 26W CF models - 1800 lumens (69 lumens per watt efficacy)
- Reflecta 32W CF models - 2400 lumens (75 lumens per watt efficacy)
- Reflecta 42W CF models - 3200 lumens (76 lumens per watt efficacy)
- Reflecta 70W Pulse-start Metal Halide models - 6200 lumens (88 lumens per watt efficacy)
