ROLLING STEEL FIRE DOOR

**Wayne-Dalton Corp.**

▲ The FireStar™ 700 Rolling Steel Fire Door from Wayne-Dalton makes the door a natural choice for safety and fire-protection needs. FireStar outperforms industry standard fire doors in all areas of safety and reliability, including auto-reset testing capability. The drop-out mechanism eliminates downtime during drop testing. It can be drop-tested easily and reset in a matter of seconds without the aid of tools or service technicians. FireStar doors have been tested and meet industry requirements, including UL, Factory Mutual, and NFPA Standard 80.
