MOULDINGS & MILLWORK

\$ | G | NEW

Architectural Products By Outwater

▲ In response to market demand for moderate-cost, premium-quality polymer mouldings and millwork that aesthetically satisfy all decorative requirements, Outwater introduces its recycled polystyrene RPS Mouldings, the cost-effective polymer mouldings and millwork without compromise. Comprising a full, decorative array of cornice mouldings and panel mouldings, RPS Mouldings redefines the standard for architectural moulding and millwork by offering a new economical decorative and design medium. Free 1,000+ page master catalog.
