FLOOD BARRIERS

\$\$

Presray Critical Containment Solutions

▲ Presray's patented FB-33 flood barriers' hand-cranked steel frame expands to quickly protect your entry doors, garage doors, and openings from flood waters. Connector mullions link multiple panels together for larger openings. FB-33s are an ideal replacement for sandbag applications.

Product Application:

- Military
- Hospitals
- Power plants

SIDE-MOUNTED GARAGE DOOR OPENER

\$\$

LiftMaster

▲ The LiftMaster® model 3800 Residential Jackshaft Opener mounts on the side of the garage door freeing up ceiling space for extra storage. It's also perfect for oversized garage doors or cathedral ceilings, as well as low ceilings where there may not be room for a conventional opener.

Performance Data:

- Optional EverCharge Standby Power System operates the opener when power is out.
