

## DO WORK

**Project Document Manager (PDM) 3.0** is designed to foster rapid, efficient and accountable communication between Owners, Architects, GCs, Subcontractors and construction support channels throughout the life of the project.

**PDM 3.0 is an efficient** and sustainable approach to managing project information, contacts and complex documentation through the project lifecycle; from concept to closeout. The result is a more efficient project workflow to help companies to be more productive, reduce project costs, mitigate risk and increase profits.

### Streamline Document Management – On Your Terms

PDM puts you in control – fast. With PDM, you can manage the complex process of project bidding, and streamline document management right from the design to close out.

The industry's leading project management systems connect easily with PDM, too, so pre-construction, construction and closeout processes are just as simple to manage.

### What Level of Service is Right for You?

» **PDM Bidding:** A web-based bid management application designed especially for GCs ease of use in providing access to invited subcontractors to bid their project(s). Subs can easily access documents... print, download and view for FREE. PDM Bidding is available to better manage the entire bidding process in a secure, easy-to-use system.

### Get Smarter

Analyze, identify and evaluate market conditions and opportunities

### Get Seen

Build your company's market presence and brand identity; online, in print and at events

### Find Work

Identify key project opportunities and increase your company's backlog

### Do Work

Increase efficiency of business processes and build project and employee productivity

- » **PDM Pro:** The next generation in single-source document management solution, where users can find the latest information on all projects, documents, bids, contacts, notifications, prequalification, sub evaluations and much more. Integrate with your PM application to save you time in project preparedness. Access your project information at any time, from any web-enabled PC.
- » **PDM Enterprise:** A customizable version of PDM Pro. This service is highly scalable, with additional programming for advanced pre-qualification, close-out functionality and connectivity with your project management enterprise applications.
- » **PDM 3.0 Collaboration:** PDM Collaboration is designed for project participants who need to be a part of the collaborative project effort, but don't need the full functionality of Pro or Enterprise. This option can be upgraded quickly and easily.

## **PDM – Powered by The McGraw-Hill Construction Network and Dodge database**

For over 115 years, McGraw-Hill Construction and Dodge have been providing local and national in-depth project news to construction professionals who are looking to build their business and keep their project backlog full. Today, McGraw-Hill Construction remains committed to offering industry-leading information and business productivity applications, so construction professionals like you can work faster, cheaper and more productively than ever before.
