WALL SYSTEMS

**THERMAX™ Wall System**

A cost-effective approach to steel stud wall design combines three simple parts into a system.

**Product Application:**
- THERMAX™ (c) Exterior Insulation
- STYROFOAM™ Brand SPF (CM Series)
- WEATHERMATE™ Straight Flashing

**Performance Data:**
- Achieves continuous insulation and meets code
- Prevents moisture penetration

---

**Dow Building Solutions**

**Product Application:**
- THERMAX™ Wall System
- STYROFOAM™ Brand SPF (CM Series)
- WEATHERMATE™ Straight Flashing

**Performance Data:**
- Achieves continuous insulation and meets code
- Prevents moisture penetration

---

**MBTechnology**

**Product Application:**
- Richmond America Homes: AZ, CA
- Murrieta High School, Murrieta, CA
- Western Nevada County Center, Grass Valley, NV

**Performance Data:**
- Mechanically fastened to deck, thus allowing breathing
- Available in 35-, 43- & 70-lb./sq.

---

**Cornell Corporation**

**Product Application:**
- Cornell University, Ithaca, NY
- Great Wolf Lodge/Waterpark, Charlotte, NC
- Wea Ridge School, Lafayette, IN

**Performance Data:**
- R-values available up to R= 4.2
- Optional airspaces to 2-in.; fire treated or FSC sheathing and spacers available; fully machined panel

---

**Epro Services Inc.**

**Product Application:**
- Seattle Justice Center, Seattle, WA
- Cogeneration Tunnels, University of North Carolina, Chapel Hill, NC
- Underground train stations (48), Vancouver, B.C.

**Performance Data:**
- Composite system with redundant barriers
- Composite system with exceptional chemical resistance

---

**Westcoat**

**Product Application:**
- Disneyland, Anaheim, CA
- Famous “Round House,” San Diego, CA

**Performance Data:**
- Class A fire rated ICC evaluated ESR-2201
- Field and lab tested since 1988
